

Form 1 (Referenced in Item 6)

Application Form for the 2025 Academic Year Program for  
Training the Knowledge Practitioners Who Will Create the Future  
(SPRING: Support for Pioneering Research Initiated by the Next Generation)

Name		Major	Advanced Interdisciplinary Science and Technology
Date of Birth	(      years old)	Student ID No.	
Field	<div><input type="checkbox"/> Applied Physics</div> <div><input type="checkbox"/> Molecular Engineering</div> <div><input type="checkbox"/> Applied Chemistry and Biotechnology</div> <div><input type="checkbox"/> Mechanical and System Engineering</div> <div><input type="checkbox"/> Intelligent Information Systems</div> <div><input type="checkbox"/> Electrical and Electronics Engineering</div> <div><input type="checkbox"/> Architecture and Civil Engineering</div> <div><input type="checkbox"/> Frontier Fiber Technology and Science</div> <div><input type="checkbox"/> Nuclear Power and Energy Safety Engineering</div> <div>Please check the corresponding <input type="checkbox"/> box above.</div>		
Email Address			
Phone No.			
Year and Month of Enrollment	_____, 20____		

Topic of Research	
-------------------	--

Please fill in this section after consultation with your (expected) academic advisor.

Verification of Eligibility — <input checked="" type="checkbox"/> Check All Boxes That Apply
<div><input type="checkbox"/> I am not a research fellow of the Japan Society for the Promotion of Science (JSPS).</div> <div><input type="checkbox"/> (For international students) I am not receiving financial support from the Japanese Government (Monbukagakusho: MEXT) Scholarship.</div> <div><input type="checkbox"/> (For international students) I am not receiving any scholarships or other financial support from my home country.</div> <div><input type="checkbox"/> I am not a member of the workforce (as defined as someone who is currently employed at a job that provides a stable annual income, totaling at least ¥2,400,000).</div> <div><input type="checkbox"/> I am not currently on a leave of absence.</div> <div><input type="checkbox"/> I have not been enrolled for longer than the standard term of study (including long-term students).</div> <div><input type="checkbox"/> I have not been subject to disciplinary action.</div>

I hereby affirm that the details of this application are true and correct.

During the support period, I shall devote myself to my studies within my educational program, and to my research, as a student receiving research grants and expenses.

### Research Plans (Not to Exceed Two Pages)

Write a brief summary of your research plans, followed by a more detailed description. The main text should cover:

1. background (positioning of research, background on current state of field and current issues, and how the research plans were conceived), 2. research objectives, 3. novelty (comparisons to prior research, expected impact of completed research, future prospects, etc.), 4. research plans (provide specific details on the plans, as well as what is to be elucidated and to what extent; include details on any collaborations with outside parties), and 5. career development plans (including research activities involving overseas internships or international study).

### **Brief Summary**

### **Main Text**

Personal Statement (Approx. 500 Words)

Include your personal goals for the future (goals for your PhD), and any past research achievements (such as conference presentations).
